THE GREENEST YACHT OF HER SEGMENT

A bold statement of eco-consciousness, style, and modern adventure.

Designed for those with an authentic voyager spirit, the B.Yond 40M is built to deliver unparalleled long-range cruising experiences in ultimate comfort while championing a new era of sustainable luxury.

Her technological soul, powered by the E-Mode Hybrid System developed in partnership with Siemens Energy, allows navigation in four different modes, including full electric. This system reduces fuel consumption, CO²

emissions by up to 24%, and NOx emissions by up to 85%.

The futuristic vision of Igor Lobanov for the exterior, combined with the refined interior solutions by Bonetti & Kozerski Architects, has infused this one-of-a-kind voyager with a timeless yet forward-looking allure. On board, her highly functional four-deck layout, which maximizes practicality and comfort during long journeys, features materials such as synthetic teak, Econyl, and FSC-certified woods, reflecting the yacht's all-encompassing green ethos.

B.YOND
40M

The B.Yond 40M is a masterpiece of engineering and design, distinguished by its unique combination of a steel hull and an aluminum superstructure. The steel hull provides exceptional solidity, making the B.Yond 40M ideally suited for navigating the open seas while ensuring the highest standards of safety on board.

Beyond its structural prowess, the B.Yond 40M also stands out for its remarkable internal volume, carefully distributed across her four decks, ensuring that every inch is utilized to maximize comfort and functionality. With an impressive 455 GT, this yacht offers an extraordinary amount of space for a vessel of its size, providing an extremely livable and spacious environment also during long cruises.

The B.Yond 40M is an extraordinary example of innovative yacht design, boasting four distinct decks—an exceptional feature for a yacht of this size.

Each deck of the B.Yond 40M is meticulously organized to serve its specific purpose. The lower deck is fully dedicated to the crew, ensuring efficient operations and allowing for the highest level of service without intruding on the privacy of guests. The main deck, a true haven of comfort, houses the guest cabins as well as the Owner's apartment in the standard configuration, offering a private retreat with ample space and luxury.

What truly sets the B.Yond 40M apart is its superior layout, which allows for significantly larger noble areas compared to competitors in its class. This thoughtful arrangement not only provides more space for relaxation and entertainment but also enhances the overall onboard experience, making every journey aboard the B.Yond 40M a memorable one.

The B.Yond 40M, with its four expansive decks, offers a variety of relaxation areas where guests can unwind and take in the breathtaking surroundings.

Among these tranquil spaces, the aft section stands out as a true oasis. This generous area

is designed for ultimate leisure, featuring a sunbathing zone and the highlight—a stunning infinity pool.

Positioned to offer an uninterrupted view of the horizon, the pool creates the enchanting illusion of skimming the surface of the sea. Whether

you're soaking in the sun or enjoying a refreshing dip, this scenic pool provides a serene escape, allowing you to fully immerse yourself in the beauty of your surroundings.

02

EXTERIOR DESIGN

Established in 2007, Lobanov Design is a studio with a strong focus on the future. With roots in transport design, fine art, interiors, and architecture, its diverse background brings a fresh and dynamic approach to superyacht design. Lobanov Design began collaborating with Benetti in 2023 to develop the new models of the B.Yond Family.

Lobanov design

In crafting the exterior, we drew inspiration from the automotive world and in particularly

from SUVs, crossovers, focusing on creating fluid but massive, robust, rounded forms, embodying the yacht's adventurous spirit while showcasing meticulous attention to detail.

This design choice not only reflects the yacht's capability to explore the open seas with confidence but also speaks to its refined aesthetics. The dynamic contrast between the powerful, solid structure and the smooth, fluid lines adds a sense of movement and vitality to the yacht's appearance, making it a true standout on the water.

One of the most striking features is the contrast stripe on the superstructure, positioned in front of the wheelhouse. This design element

elegantly integrates navigation lights and decorative LED lights, defining the yacht's sophisticated yet commanding profile.

This detail, reminiscent of the iconic exploration vehicles of the automotive world, reinforces the B.Yond 40M's connection to adventure and discovery.

*“The B.YOND 40
CAPTURES the ESSENCE
of EXPLORATION”*

03

INTERIOR DESIGN

Enrico Bonetti and Dominic Kozerski, who have worked as a team for over 25 years, rely on one another to express every design's core vision clearly by defining it through its most essential elements. The studio's portfolio boasts notable international projects for art galleries, residential, hospitality, commercial spaces, and luxury yachts.

Bonetti/Kozerski
Architecture

The interior of the B.Yond 40M represents an interpretation of the Voyager concept, a vessel with an adventurous spirit and long-range cruising capabilities.

Every element of the design has been thoughtfully curated to provide the utmost comfort, ensuring that even the most intrepid voyages are experienced in ultimate style.

The design philosophy behind the B.Yond's interiors marries modern elegance with durability. Natural materials, chosen for their tactile sophistication, are paired with refined hi-tech details that highlight the advanced technology on board. This combination creates an environment that is both inviting and resilient, reflecting the yacht's dual focus on comfort and performance.

The interiors are characterized by an apparent but sophisticated simplicity.

This essential approach is further elevated by the inclusion of loose furniture, whose timeless and elevated design enriches the architectural framework, adding a unique touch of individuality to each space.

“SIMPLICITY IS *the* RESOLUTION
of COMPLEXITY”

The B.YOND 40M showcases an innovative approach to design with silk-printed glazing on both the main and lower decks.

This advanced technique ensures that the glazing seamlessly blends with the hull color, creating a unified and harmonious look. The result is a clean, refined appearance that not

only enhances the yacht's aesthetic appeal but also contributes to its streamlined profile.

The silk-printing process delivers a smooth, continuous finish on the glazing, eliminating any visual interruptions and allowing the yacht's sleek lines to flow effortlessly.

A covered and protected spacious garage, a feature that exemplifies the B.Yond 40M's commitment to practicality, is designed to accommodate a variety of tenders and toys, offering the owner adventure and leisure on the water.

The B.YOND FAMILY
IS *the* SHIPYARD'S MOST ECO-CONSCIOUS YACHT RANGE TO DATE.
A TRULY GREEN SPIRIT, REFLECTING *the* EXPECTATIONS
of MODERN ECO-ADVENTURERS.

01

UPPER DECK: THE SIGNATURE SPACE

The Upper Deck of the B.Yond 40M reveals an unexpected and impressive open space that extends seamlessly along 15 uninterrupted meters, offering breathtaking views from bow to stern. This expansive area, encompassing approximately 85 square metres, is dedicated to socialization and entertainment, making it a true standout in its size range.

At the stern of the Upper Deck, a spacious semi-covered lounge area of approximately 60 square metres invites guests to relax in style. This minimalist lounge, furnished with loose furniture, is connected

to the main salon by a 2.6 metres-wide sliding glass door, creating a fluid transition between indoor and outdoor spaces.

A staircase from the lounge leads directly to the Beach Area below, further enhancing the connectivity of the yacht's design.

The Beach Area, a stunning 105-square-metres space, is centered around a 10-square-metres pool that serves as the main attraction. This area provides guests with a seamless outdoor space for relaxation, offering an intimate connection with the sea.

The saloon on the Upper Deck of the B.Yond 40M is a remarkable feature that sets it apart, offering an uninterrupted visual flow that significantly enhances the sense of openness and freedom aboard the yacht.

Surrounded by large windows that provide a 360° panoramic view, the saloon is the perfect spot to relax and immerse in the natural beauty.

At the bow of the saloon, a dining area is elegantly positioned, featuring a large central table that overlooks the forward sun deck and the endless horizon.

A central- glass finished- staircase leading to the sundeck, dedicated to guests, has been specifically designed not to disrupt the visual continuity of the space. This staircase also serves as a distinctive design element, adding to the overall aesthetic appeal of the saloon.

For those seeking to elevate their onboard experience, the Upper Deck saloon can be enhanced with the addition of an American Bar. This optional feature adds a touch of elegance and functionality, making the saloon an ideal setting for social gatherings and refined entertainment.

*The UPPER DECK
that EXTENDS
20 METERS
from STERN to BOW*

The chandelier in the dining area is a marvel of technological design, equipped with a mechanism that retracts it seamlessly into the ceiling during navigation. When at anchor, it descends gracefully, enhancing the space with a striking aesthetic effect.

At the bow of the Upper Deck, just behind the dining area, a 2.5-metres-wide sliding glass door opens to a spacious terrace, beautifully furnished with a large central sofa and a sunbed.

This 36.5 square metres area offers a serene space with a privileged view while seamlessly blending the interior and exterior, creating a harmonious flow between the two environments.

02

MAIN DECK: DESIGNED TO WELCOME

THE MAIN DECK CONFIGURATION LAYOUT

The standard configuration of the Main Deck is thoughtfully arranged with four large cabins plus a full-beam master suite.

Beginning at the stern and moving forward, the deck first features two spacious VIP cabins.

Continuing through the Main Foyer, two additional guest cabins offer ample comfort and space.

The journey through the Main Deck concludes at the bow of the B.Yond 40M, where the generous owner's suite is located.

On this deck, a garage can also accommodate two Jet Skis, a 6.5-metres tender and a rescue boat.

MAIN DECK // VIP CABIN

The 46,7 square metres Owner's Suite is designed to provide total comfort. It features generous walkable spaces, a large private en-suite bathroom, a beauty area, and a versatile area that can be used as an office. Spacious windows allow natural light to filter in, enhancing the ambiance and offering stunning views.

MAIN DECK // OWNER'S SUITE

The B.Yond 40M offers a unique layout option where the owner's suite can be situated on the Bridge Deck, providing an exceptional living experience. This configuration involves enclosing a portion of the aft terrace on the Bridge Deck, which increases the yacht's Gross Tonnage while enhancing the overall living space.

The owner's suite on the Bridge Deck measures 20 square metres and is designed with luxury and comfort in mind. The bed is positioned to face the expansive terrace at the stern, offering stunning views that seamlessly connect the interior with the surrounding seascape. The suite also includes a spacious walk-in closet and a bathroom featuring a large panoramic shower, allowing natural light to flood the space.

Aligning perfectly with the Voyager yacht's concept, the B.Yond 40M's wide panoramic private terrace offers breathtaking views, ensuring an unparalleled relaxing experience for the owner. This layout option not only maximizes privacy but also enhances the connection between the indoor and outdoor spaces.

BRIDGE DECK // OWNER'S SUITE WITH PRIVATE TERRACE

BRIDGE DECK // OWNER'S SUITE // PRIVATE TERRACE

03

BRIDGE DECK: OPEN VISTAS AND SHELTERED SERENITY

In its standard configuration, the Bridge Deck of the B.Yond 40M features a spacious outdoor lounge at the aft, offering a stunning 270° panoramic view. This area is thoughtfully designed to create a relaxed and inviting atmosphere, with loose furniture and sun loungers that encourage leisurely enjoyment of the surroundings.

For owners seeking a more sheltered outdoor experience, the layout can be modified by reducing the size of the terrace while preserving the sunbathing area with loungers. This alternative configuration allows for the addition of an Enclosed Veranda at the aft of the Bridge Deck. This semi-covered space is designed for those who prefer a more protected setting to enjoy the outdoors. The Enclosed Veranda

features a sliding glass door that seamlessly connects the interior with the exterior, maintaining the flow between both spaces.

This layout option not only offers enhanced versatility but also increases to 480GT. Additionally, the Bridge Deck is connected to both the Upper Deck and the Sundeck via dedicated guest staircases, ensuring privacy even in the relaxation zones.

The combination of open space, panoramic views, and flexible design options makes the Bridge Deck a key area for both socializing and relaxation on the yacht.

04

SUNDECK: ENJOY THE BELVEDERE

The Sundeck of the B.Yond 40M extends 10.5 metres in length, providing 67 square metres of versatile space designed for relaxation and entertainment. This expansive area features a central dining table, ideal for enjoying lunches and dinners while taking in breathtaking views from a privileged vantage point.

Guests can also unwind on the sun loungers situated at the stern, or explore the "Belvedere Shelf" at the bow, offering an elevated perspective of the stunning surroundings. Whether dining or lounging, the Sundeck ensures a true outdoor experience with panoramic vistas that enhance every moment spent on board.

GENERAL ARRANGEMENT & MAIN TECHNICAL DATA

CONSTRUCTION MATERIAL	STEEL
LENGTH OVERALL (LOA)	39.5M / 129' 8''
MAXIMUM BEAM	8.6M / 28' 3''
MAXIMUM DRAFT	2.7M / 8' 12''
GROSS TONNAGE	450/480 GT
FUEL CAPACITY	66.000L / 17.500US GALS
FRESH WATER CAPACITY	6.000L / 1.6000US GALS
ENGINES	2 X MAN V12-1450HP/1066KW@2100RPM (WITH SCR-MAN)
CRUISE SPEED / MAX SPEED	12 / 14KNOTS
RANGE	5.000NAUTICAL MILES @10KN
BOW THRUSTER	1 X ELECTRIC MOTOR DRIVEN, 90KW
EXTERIOR DESIGN	LOBANOV DESIGN
INTERIOR DESIGN	BONETTI/KOZERSKI ARCHITECTURE

RELEASE 09.2024 - The technical data shown here are intended to be preliminary and they are subject to future amendments based on the development of the project.

The B.Yond 40M can be equipped with an innovative hybrid electric technology to further embody the characteristics of a truly new-generation yacht.

The Selective Catalytic Reduction (SCR) filters, engineered to reduce NOx emissions, can be optioned and combined with the unique E-Mode hybrid system by Siemens Energy; a crew-friendly integrated add-on architecture built on top of a traditional system that is developed to reduce CO₂ emissions and increase comfort levels on board. Yacht operation is therefore simplified—with the switch from mechanical to electric propulsion, and vice versa—and no longer requires the intervention of dedicated personnel.

Furthermore, the cooperation of these two solutions can enable a significant reduction of harmful emissions throughout the yacht's

life cycle. Upon request, the B.Yond 40M can also be equipped with the Hotel Mode system, which allows it to stay at anchor immersed in complete vibration-free comfort.

When the generators are switched off, the high-density lithium-ion battery bank can feed the main onboard systems for up to 4 hours during the daytime and up to 8 hours at night.

With a recharge time of just 3 hours, this solution enables the B.Yond 40M to avoid CO₂ emissions entirely.

ENHANCED COMFORT MODE

Ideal for low-speed coastal or night cruising and maneuvering. The main benefit of this mode is the exceptional comfort it offers and increased maneuverability. The yacht can cruise in electric mode at low speed with diesel engines switched off, but their gensets continue to supply energy to the electric motors.

EXTENDED RANGE MODE

Designed for long-transfer journeys and coastal cruising, this mode reduces fuel

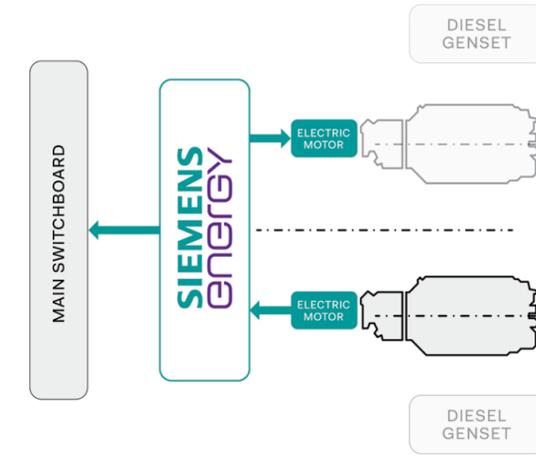

consumption and emissions. When the gensets are switched off the yacht can go at full speed, with the electric motors powered by the main engine and working as shaft generators.

ECO TRANSFER MODE

Both diesel generators are switched off while one propulsion engine only continues to run, enabling the yacht to halve the running hours of the main engines and gensets. As a result, fuel consumption, CO₂ emissions and NOx emissions can be sensibly reduced compared with traditional propulsion systems.

ECO CRUISE MODE

In this mode, batteries supply energy to the electric motor to cruise. Most suited for short trips along the coast, this zero-emission mode allows entry into protected marine areas or zones usually designated as off-limits to motor yachts, with the range depending on the capacity of the battery pack.

ECO-TRANSFER MODE

DAY CRUISE AT 8KN - BATTERY PACK 112 kWh

FUEL SAVING **- 12%** HOURS OF DG SAVED **- 100%**

With ECO TRANSFER MODE Navigation, both diesel generators are switched off while one propulsion engine only continues to run, enabling the yacht to halve the running hours of the main engines and gensets. Fuel consumption and CO₂ emissions can be reduced by up to 16% and NOx emissions by up to 80% compared with traditional propulsion systems.

HOTEL MODE, ZERO EMISSIONS AND TOTAL COMFORT AT ANCHOR

The B.Yond 40M can be equipped with the Hotel Mode system, which allows to stay at anchor immersed in complete vibration-free comfort.

When the generators are switched off, the high-density lithium-ion battery bank can feed the main onboard systems for up to 4 hours during the daytime and up to 8 hours at night.

With a recharge time of just 3 hours, this solution enables the B.Yond 40M to avoid CO₂ emissions entirely.

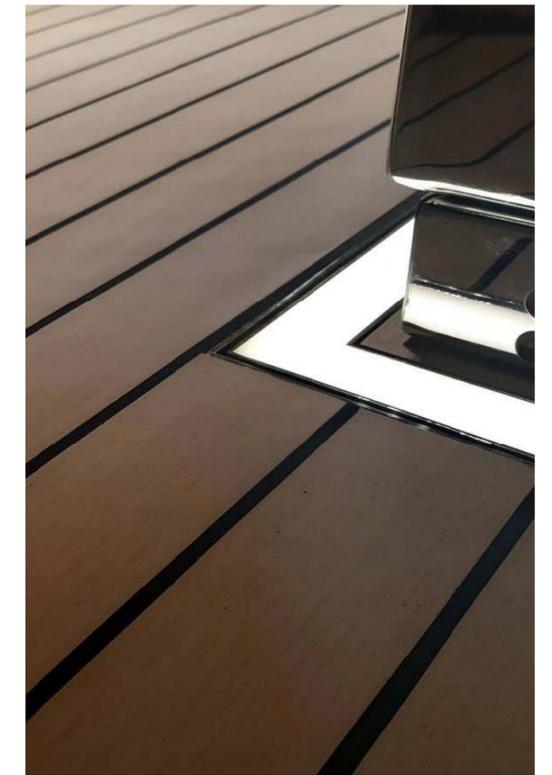

SUSTAINABLE MATERIALS

B.Yond 40M embodies an unequivocal eco-identity on board, coming to life through a selection of natural and recycled materials, like FSC-certified woods, Econyl®, obtained from regenerated nylon which can be recycled indefinitely, reducing its polluting impact by up to 90% compared to traditional nylon, and synthetic teak. EcoDeck® offers a high-end, sustainable alternative to traditional teak decking, combining excellence with environmental responsibility.

Crafted from renewed, solvent-free resins, EcoDeck® is fully recyclable at the end of its lifecycle. This innovative Dutch material provides exceptional design flexibility, allowing for custom finishes and the integration of LED lights directly into the decking.

Beyond its aesthetic and functional benefits, EcoDeck® is remarkably low-maintenance, being stain-resistant and eliminating the need for annual sanding.

This ease of upkeep translates into significant advantages for both crew management and maintenance costs, making EcoDeck® a smart, eco-friendly choice for modern yachts.
