## CRUISE *in* LOFT STYLE

The B.Loft 65M brings a revolutionary concept to yachting, where interior and exterior spaces flow together in perfect harmony. Her design features lofty ceilings and generous vertical dimensions, inspired by the open, airy layouts of contemporary lofts and multi-level villas.

The architectural structure of the B.Loft 65M harmonizes perfectly with its surroundings: large windows flood the interiors with natural light, providing breathtaking views and a

sense of openness that makes the yacht feel like a floating loft.

The fluid design, a result of the collaboration between Benetti and **Giorgio M. Cassetta**, introduces a dynamic and layered connection throughout the yacht. This innovative concept is highlighted by the multilevel integration of outdoor decks, offering a spatial experience and a seamless flow between levels creating a sense of openness and connectivity that redefines life at sea.

B.LOFT  
65M

B.Loft 65M introduces an unexpected architectural language and a new perception of space. The project revolutionises the flow and vertical connections throughout the yacht thanks to a distinctive pattern of entry and movement that ensures a natural and intuitive transition between different areas.

The B.Loft 65M stands out with its distinctive Cabana Club, a fresh reinterpretation of the traditional beach club concept. This panoramic area offers a breathtaking 270° view, fully open on all sides, creating a harmonious connection with the surrounding environment.

## EXTERIOR & INTERIOR DESIGN

---

The more than decade-long partnership between Benetti and **Giorgio M. Cassetta** stands as one of the shipyard's longest and most successful, marked by a series of remarkable yachts, starting with the first **Delfino 93** in 2011, and includes nine bespoke creations over 60 metres, such as the stunning 107.6 metres **M/Y Luminosity**.

Giorgio M. Cassetta

The remarkable use of interior heights creates a sense of space and openness on board B.Loft 65M. With lofty ceilings and expansive vertical dimensions, the yacht offers an open and grand atmosphere, providing guests with an uncommon feeling of liberty. This design approach not only optimizes both visual and physical space but also enhances the overall onboard experience.

The extensive use of glass allows natural light to flood the interiors, blurring the line between indoor and outdoor spaces and delivering a true **Loft experience** aboard a Benetti yacht.

The Cabana Club introduces a new way of experiencing the beach club, offering versatility for both indoor and outdoor relaxation. Inside, guests

can unwind in a sheltered space situated at sea level, creating a tranquil environment close to the water. Above, a plunge pool with a glass bottom adds a stunning visual element, allowing sunlight to filter through and illuminate the interior below.

## THE CABANA CLUB REDEFINING THE BEACH CLUB EXPERIENCE

The boarding experience on the B.Loft 65M is one of her defining features, offering a fresh take on traditional unique entryways concept. Guests are welcomed aboard via a stunning staircase that leads directly to the expansive al fresco area on the main deck.

Alternatively, boarding can be done through the Cabana Club, which is directly connected to the Lower Deck, where the five guest cabins are located, ensuring rational and functional flow throughout the yacht.

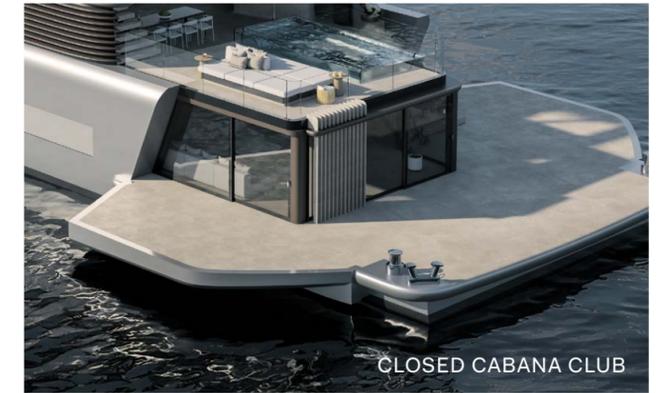

Situated within the 140 square metres Beach Area, the Cabana Club is an innovative Beach Club lifestyle, providing a sea-level experience within a 34.5 square metres area, surrounded by 270° glass walls.

Finished in resin for a minimalist effect, the space is beautifully illuminated by two sources: the expansive glass walls and the translucent bottom of the plunge pool above. This design allows soft, filtered light to fill the Cabana Club, creating a serene and inviting atmosphere for relaxation.

The Cabana Club also serves a functional purpose, acting as a transition zone between the external beach club area and the interior of the Lower Deck. It provides direct access to the guest cabins located at the aft through a watertight door.

This thoughtful division of spaces is designed to facilitate optimal connections between the guest cabins and the core areas of the B.Loft 65M, enhancing both convenience and flow throughout the yacht.

## MAIN DECK BREATHTAKING VISTAS

---

The top of the Cabana Club boasts an expansive outdoor area of over 40 square metres, accessible via a grand staircase that is 4.5 metres wide. This exclusive space offers a privileged panoramic view, enhanced by a large swimming pool, perfect for relaxation and enjoyment of the surroundings.

The area features a comfortable relaxation zone, making it an ideal retreat.

One of the standout features of this space is its seamless connectivity: the al fresco area on the main deck is directly in front, while a wide staircase leads up to the dining area on the Upper Deck.

The expansive aft area of the main deck, spanning over 120 square metres, serves as a transitional space between the open sea and the yacht's interior.

This semi-covered al fresco area is elegantly furnished with minimalist, loose furniture, providing an ideal spot for relaxation while preserving a strong connection to the outdoors.

Upon request, this space can be enclosed, significantly increasing the interior volume and allowing the owner to customize it according to their needs and preferences, transforming it into a more traditional interior space on the main deck.

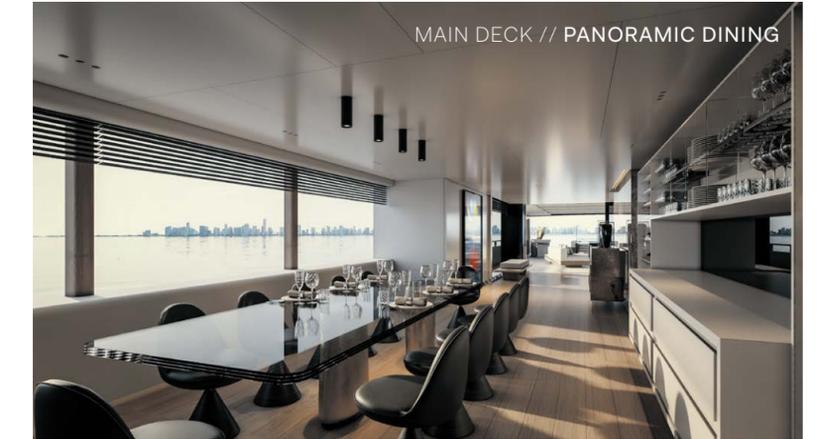

# INVITING ATMOSPHERES

As entering the Main Deck, a 2.5-metres wide sliding door unveils a welcoming lobby. This inviting space sets the tone for the interior, leading into the expansive dining room, which features a large table as its centerpiece.

The dining area, directly connected to the Galley for optimized crew flow, is surrounded by full-height windows and spans over 40 square metres, allowing natural light to illuminate the space.

Further ahead, a second lobby awaits, complete with a charming winter garden and a foldable balcony, adding an extra touch of luxury and elegance to the overall atmosphere.

# 06

## UPPER DECK LOFT-STYLE LIVING

---

The Upper Deck skylounge, measuring around 80 square metres, is a thoughtfully designed immersive space. Its double-height windows keep you connected to the surrounding outdoor areas, creating a sense of limitless openness, that perfectly captures the essence of loft living. This feeling is further enhanced by the 5.5 metres sliding door, which seamlessly blends the interior with the exterior dining area. The saloon is also equipped with a day head and provides direct access to the owner's cabin located in the forward section, ensuring both convenience and privacy.

The glass-bottom pool on the Sundeck creates a mesmerizing effect in the Upper Deck saloon. As sunlight streams through the pool's transparent floor, it bathes the lounge in soft, dappled light, infusing the space with a calming, ethereal glow. The shifting reflections from the water above further enhance the soothing atmosphere, amplifying the sense of relaxation within the interior.

The Upper Deck boasts a 38 square metres panoramic terrace, protected by a grid

that shields it from direct sunlight while still allowing natural light to filter through. Overlooking the aft of the yacht, the terrace offers a stunning view of the relaxation area atop the Cabana. At its center, a large dining table is perfect for outdoor meals, maintains a strong connection to the interior through a 5.5 metres sliding glass door. This design element reinforces the yacht's loft-style experience, creating the sensation of an open-space terrace reminiscent of a modern loft.

UPPER DECK // SKYLOUNGE

## OWNER'S APARTMENT AT THE BOW

Located at the bow on the Upper Deck, the Owner's Apartment is a refined alcove that reflects the elegance found throughout B.Loft 65M's main areas. With an impressive 2.7 metres ceiling height, the apartment offers a generous interior space of over 70 square metres.

It features direct access to a stunning terrace, seamlessly connected by two 2 metres wide sliding doors, enhancing the sense of openness and connection to the sea. Inside, the cabin includes a spacious walk-in wardrobe, which serves as a transition to the expansive bathroom, divided into "his

and hers" sections and connected by a large central shower.

## OWNER'S APARTMENT TERRACE

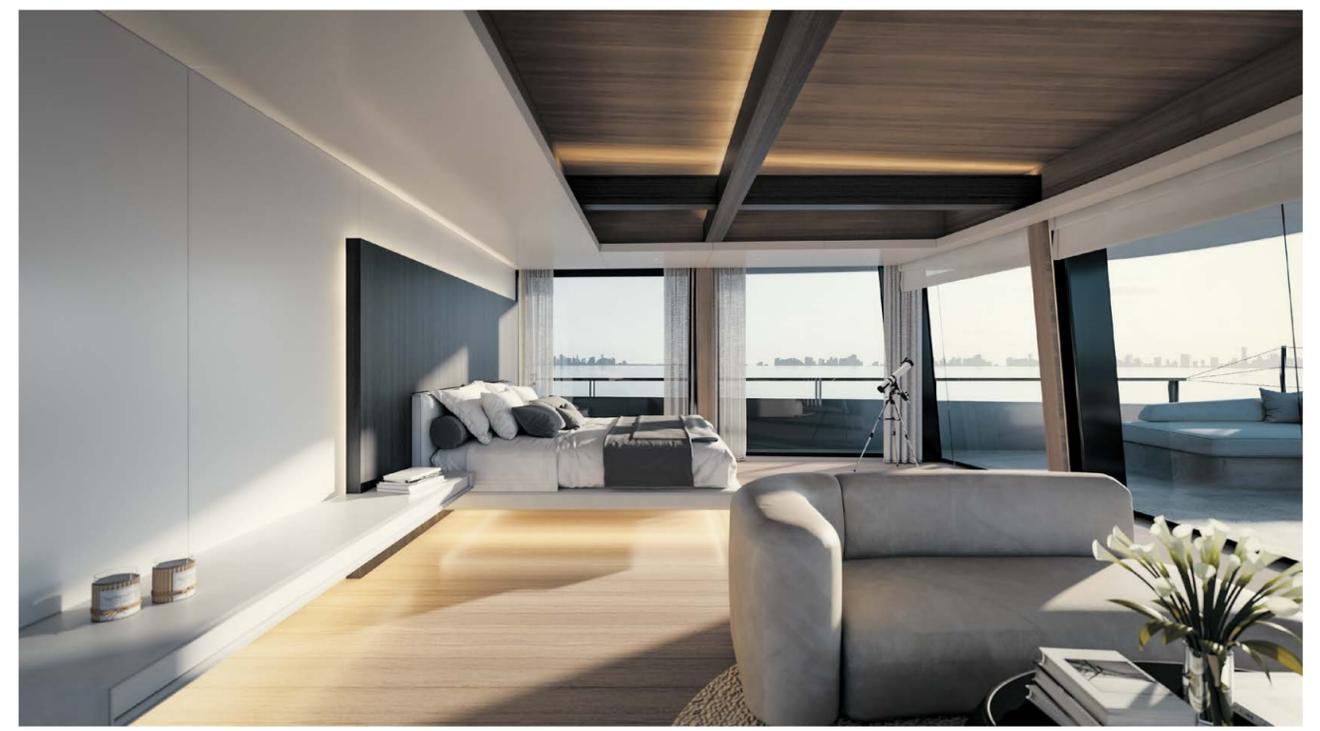

The 130 square metres terrace seamlessly blends the interior and exterior spaces, allowing the owner to fully appreciate the breathtaking landscapes visible from this prime location at the bow of the vessel. The stylish decor on the terrace creates an inviting space for relaxation and social

gatherings, while its highly configurable design offers flexibility. The terrace can be transformed into a touch-and-go heli deck, ensuring the outdoor area enhances the living experience in style.

## SUNDECK: INSPIRED BY ROOF-TOPS

---

The design of the Sundeck reflects a desire to bring the modern city lifestyle to the yachting experience, creating a private yet convivial outdoor living space.

Boasting 110 square metres of flexible space, this impressive deck features a multi-level layout, a multilayered connection that allows both privacy and social entertainment, enhancing the sense of openness in the external areas. This design choice facilitates the connection between external decks through staggered levels, elevating the outdoor experience.

A central dining area, a sunbathing zone at the bow, and a breathtaking infinity pool with a glass bottom, bring the sophisticated vibe of an urban loft to the open sea.
