A NEW ERA *of* GLAMOUR

Inspired by the timeless allure of Benetti's shapes, the Motopanfilo 45M brings the bespoke glamour and extreme elegance of the *Kennedy style* into a new era, giving rise to the Navetta of the third millennium.

MOTOPANFILO
45M

Built with a steel hull and an aluminum superstructure, the Motopanfilo 45M is designed to cruise the world's oceans with unmatched strength and grace.

The yacht's essential and linear aesthetic is the result of a successful collaboration between Benetti and RWD, creating a silhouette that harmoniously blends tradition with modern ocean lifestyle.

The yacht's interior, penned by Lazzarini & Pickering Architects, further enhances this balance with a sense of purity and modernity.

At the heart of the Motopanfilo 45M's design is a desire to connect owners and guests with the surrounding nature, offering a relaxed and informal lifestyle.

This philosophy is embodied in the seamless integration of interior and exterior spaces, culminating in the innovative Veranda Deck®.

This groundbreaking feature introduces a new milestone in the yachting industry, providing an unparalleled marine experience that redefines the boundaries of life at sea.

01

EXTERIOR DESIGN

Over the past three decades, RWD has emerged as one of the foremost yacht design studios in the world, driven by energy, talent and creativity.

Through a longstanding partnership with Benetti, RWD has consistently pushed the boundaries of yacht design, from pioneering concepts like the Oasis Deck® to the groundbreaking Veranda Deck® on the

Motopanfilo 45M.

“It began as a conversation about the golden age of yachting. About the old school glamour and unashamed nautical elegance of the 1960s’ classic Motopanfilos. About a time when yachts were yachts. And it evolved into the creation of a brand new 45M RWD and Benetti collaboration”.

The unique main deck aft is where the whole design started and flowed from. At 22 meter long, the Veranda Deck® inhabits an incredible space focused around a more inside-outside informal yachting lifestyle with areas for dining, lounging and sun-soaking at the pool. Large, rectangular hull windows amidships

allow views and daylight to stream into the cabins, while forward, the round portholes are a nod to the original design traditions of the first Motopanfilos.

“THE INSIDE GLIDES
SO EFFORTLESSLY INTO
the OUTSIDE,
that it ALMOST
DOESN’T FEEL LIKE YOU
ARE INSIDE *at ALL*”

02

INTERIOR DESIGN

LPA is a multidisciplinary studio led by Claudio Lazzarini and Carl Pickering since 1982. The practice has gained international renown in many fields of architecture and design, specializing in luxury, fashion, residential, retail, restaurant, and hospitality commissions, as well as nautical and furniture proposals.

Lazzarini & Pickering

Since 2004, Benetti and LPA have been collaborating and have produced exceptional results, including the stunning 52M custom yacht M/Y Sai Ram.

Inspired by the neat and elegant exterior design, the interiors continue to explore Benetti's nautical heritage through a refreshed vision. Conceived as a seamless extension of the Veranda Deck®, the spaces recall the outdoors, attracting an abundance of natural light through the rectangular hull windows and round portholes, offering a lifestyle of understated and informal luxury in touch with nature. An abundance of natural light enlarges spaces and further connects guests to their environment.

“WE CALL OUR PROJECTS SITE-SPECIFIC.
*In THIS CASE, MOVING LIGHTS and LANDSCAPE
BECOME the CONTEXT of the BOAT”*

“THE MOTOPANFILO 45M
IS ARCHITECTURAL BUT NOT STATIC.
IT IS ELEGANT *and* INSPIRED BY MOVEMENT,
a CRUISING BOAT WITH *a* MORE RELAXED FEEL BUILT IN
a MORE DETAILED WAY, MORE FLUSH,
WITH LOTS *of* OPEN AREAS *and* VISTAS.”

Mark Gardner – RWD

The exterior profile is characteristically balanced, encapsulating Benetti's nautical heritage while feeling fresh, stylish and distinctive. Her design features expansive windows, innovative cut-outs, and purposeful lines that create an open, elegant, and athletic appearance, underscoring the yacht's exceptional seaworthiness.

A defining painted signature line accentuates the Veranda Deck's impressive extension, contributing to the yacht's distinctive and dynamic presence.

OBSERVATION DECK

Perched at the highest point of the yacht, the Observation Deck is a serene sanctuary designed for ultimate relaxation and panoramic enjoyment.

This exclusive retreat features a large, comfortable sofa encircled by sleek glass railings, providing unobstructed, breathtaking views of the sea.

It is effortlessly accessed via a staircase from the unique Sundeck, which invites guests to luxuriate

in the beauty of the sea while lounging in the sun, combining relaxation with an unparalleled connection to the surrounding ocean.

WHERE SKY MEETS SEA

04

VERANDA DECK® A CELEBRATION OF TOGETHERNESS

The Veranda Deck® on the Main Deck introduces a revolutionary lifestyle concept developed by Benetti with RWD and decorated by Lazzarini Pickering Architects.

This expansive open-space area, featuring an elegant central pool, embodies a true sense of freedom, offering guests an unparalleled connection with the ocean. The design seamlessly integrates natural materials, fostering a sense of continuity with the outdoors and enhancing a lifestyle that harmonizes with nature.

The Veranda Deck® opens fully on three sides, creating a fluid transition between the lounge and the stern, where interiors effortlessly transform into exteriors.

This innovative concept turns the Main Deck into the vibrant heart of life on board, a space where togetherness is celebrated, and the joys of life at sea are embraced to the fullest.

The Veranda Deck®'s interior design perfectly aligns with the yacht's new patterns of use, creating a natural draw towards the outdoor areas.

Lazzarini & Pickering have meticulously selected loose exterior furnishings that not only complement the yacht's aesthetics but are also positioned at the same height as the gunwale, preserving the sleek exterior lines.

The glass staircase connecting the main deck to the upper deck is a stunning focal point. Exceptionally beautiful and transparent, it is designed to enhance the flow of guests and crew without interrupting the deck's unique edge perception.

Two expansive openable windows transform the interior space of the Veranda Deck® into a private

terrace, offering an immersive connection with the sea. When closed, they are a shelter from the chilly breeze, allowing the space to serve as a traditional Main Salon. This thoughtful design ensures the Veranda Deck® remains a versatile and inviting area, whether enjoying the open air or seeking a cozy retreat.

Additionally, the Winter Garden area can be enclosed by two glass sliding doors, designed to minimize visual impact and maintain harmony with the Veranda Deck® concept, ensuring this space remains versatile and inviting, whether open to the elements or enclosed.

The outdoor area of the yacht is designed for both relaxation and entertainment, featuring an elegantly appointed Outdoor Bar and multiple lounge areas that invite guests to unwind in style. The layout encourages social interaction, offering comfortable spaces for intimate conversations or group gatherings. One of the standout features is the innovative sliding pool enclosure, which seamlessly transforms the space. When the enclosure is closed, it allows for the full use of the deck,

creating an expansive area. This versatility ensures that the outdoor space can effortlessly transition from a serene retreat to a lively party deck, making it the perfect setting for any occasion.

05

MAIN DECK: THE OWNER'S PRIVATE SUITE

The yacht's Owner's Private Suite spans an impressive 60 square meters, offering an exclusive retreat that combines luxury and functionality. Upon entering from the main deck lobby, you'll find a dedicated lounge, perfect for conducting business meetings or enjoying private aperitifs in a serene setting.

The owner's cabin, located at the bow of the main deck, is a spacious and well-lit haven featuring large, functional spaces designed for comfort and ease.

The full-beam sleeping area provides an expansive and restful environment, complemented by a

luxurious bathroom equipped with a double washbasin. On the port side, a generous enclosed dressing area adds to the suite's practicality, ensuring ample space for storage and preparation.

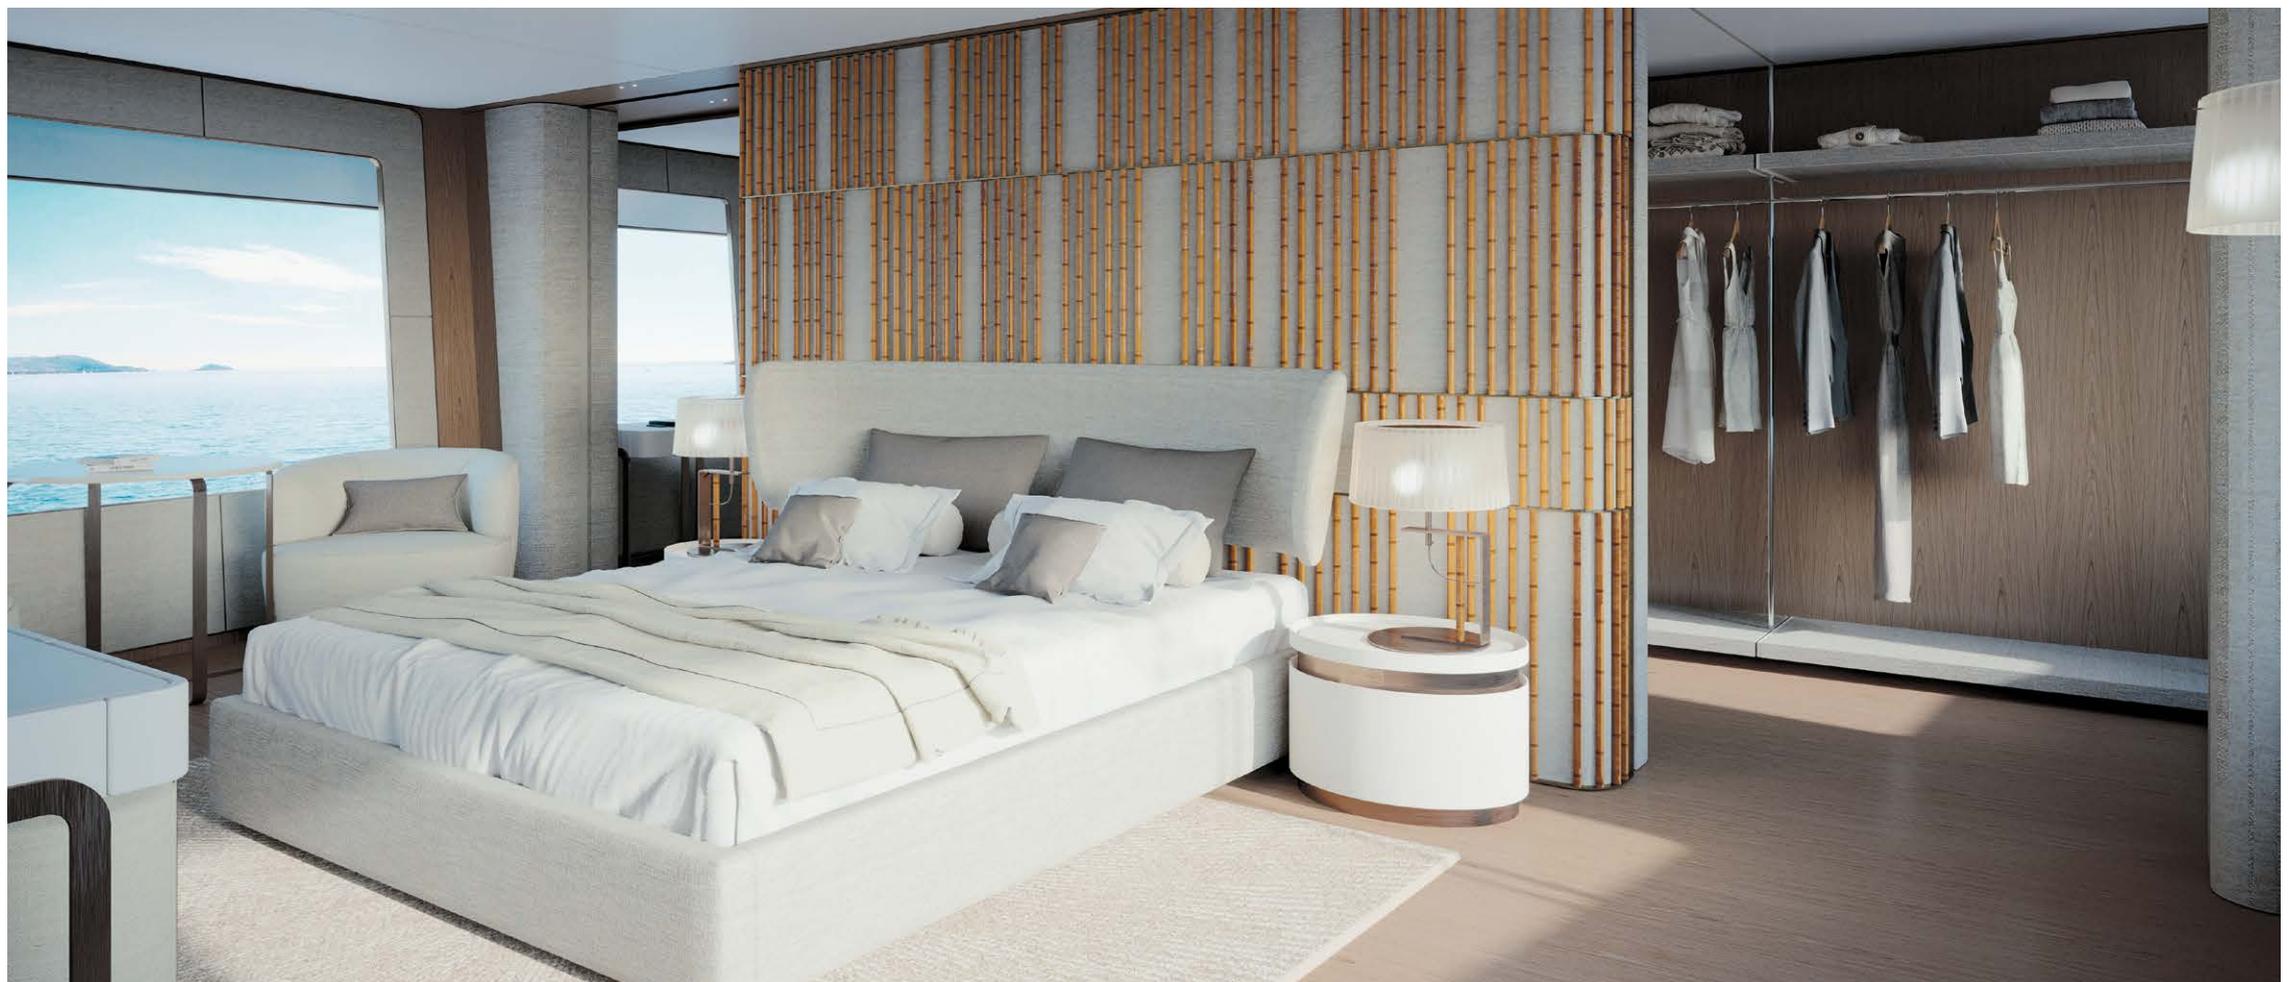

The interior design exudes a relaxed atmosphere, with carefully chosen fabrics featuring a 3D effect, elegant steel accents, and the rich texture of wood or natural bamboo-inspired details.

This combination of elements creates a harmonious blend of sophistication and tranquility, making this space a true sanctuary on the sea.

06

UPPER DECK: BRIGHT ELEGANCE

The Upper Deck offers a refined blend of natural light and comfort, highlighted by a spacious 40 square metres Skylounge and a generous 60 square metres aft terrace.

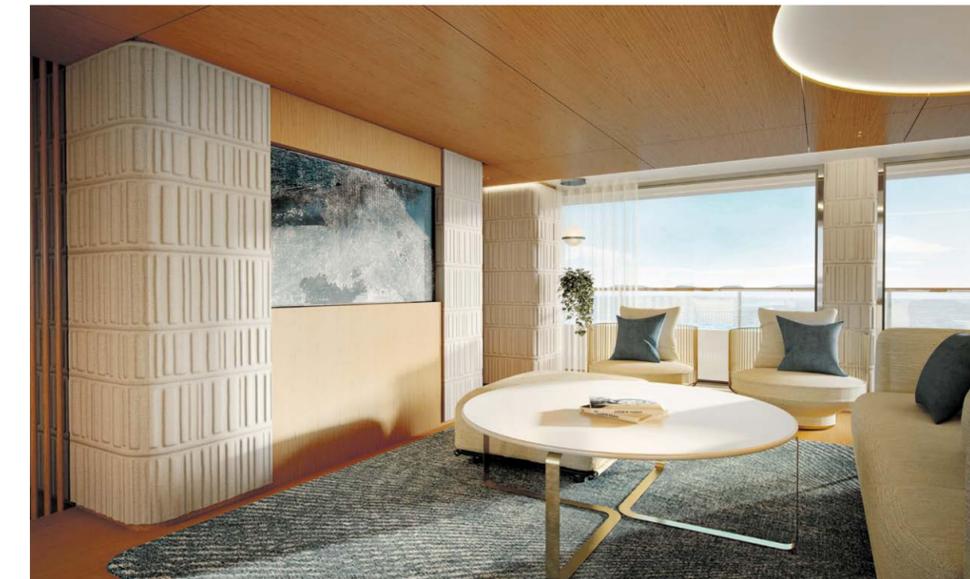

Designed with seamless elegance, the deck features no stairs from the stern to the sundeck, optimizing livable space and maintaining a cleaner exterior profile.

The Skylounge is a beautifully appointed retreat with two distinct lounge areas, each oriented to maximize the experience.

One area faces the bow, creating an ideal space for relaxing and enjoying the TV, while the other faces the stern, offering spectacular outdoor views.

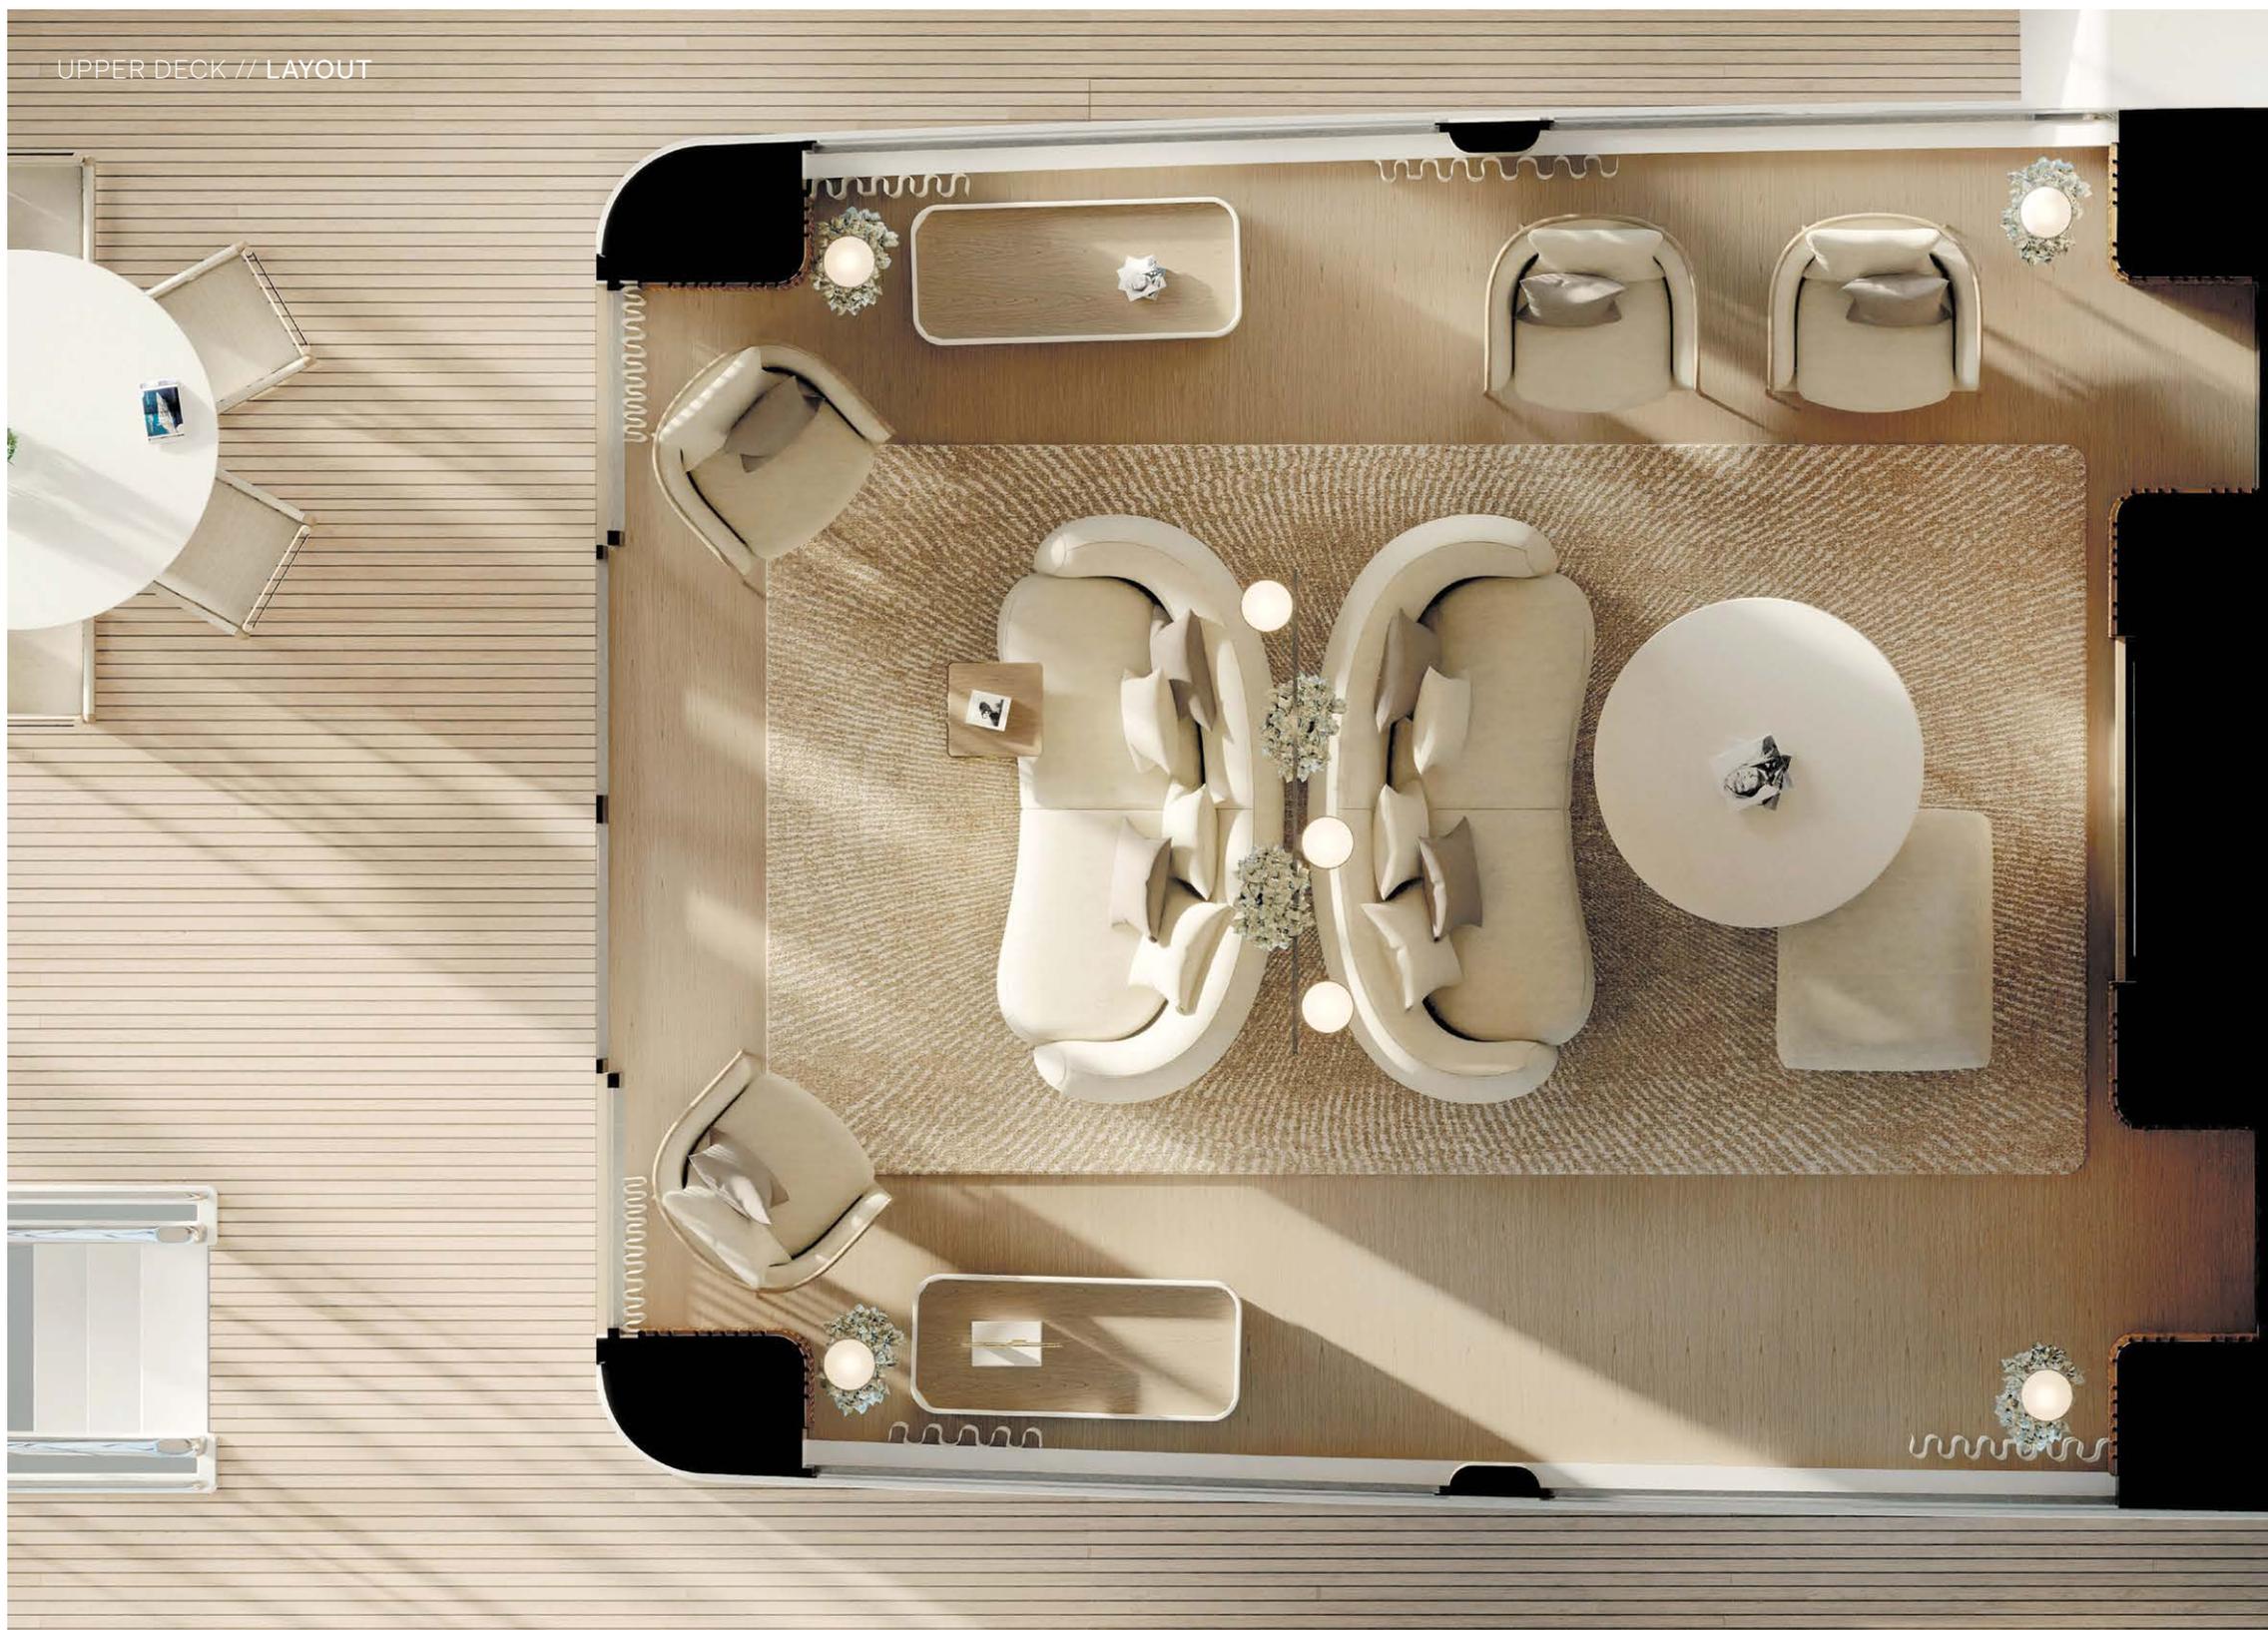

Full-height windows flood the Skylounge with natural light, enhancing the sense of openness and connection with the surrounding environment. Adjacent to the Skylounge is a well-equipped 10 square metres UD pantry, ensuring convenience and efficiency in serving the needs of guests.

THREE DÉCOR *a* SINGLE CHARM.

UPPER DECK // LAYOUT

STANDARD DÉCOR

LAYOUT FOCUS:

PRIVATE OWNER'S SUITE ON THE UPPER DECK

In an alternative layout option for the yacht, the owner's cabin can be positioned at the rear of the Upper Deck, offering a distinctive blend of privacy and panoramic views. This configuration, featuring an area of 40 square metres, provides a unique

level of privacy and an expansive private terrace that enhances the owner's experience.

This reimagined layout elevates the owner's suite to a prime location with sweeping vistas, creating

an exclusive retreat high above the water. The large private terrace extends the living space outdoors, allowing for serene relaxation while enjoying unobstructed views of the horizon.

A UNIQUE LEVEL of PRIVACY, PANORAMIC VIEWS, and a LARGE PRIVATE TERRACE

As a result of relocating the owner's cabin, the fore area of the Main Foredeck is freed up and can be transformed into a beautiful lounge

area. This addition provides an extra indoor space for lounging, enriching the yacht's overall comfort and functionality.

07

LOWER DECK: NAUTICAL GRACE

The Lower Deck features two VIP cabins and two guest cabins. The two VIP cabins, measuring 17 and 16 square metres, provide spacious and refined retreats, each thoughtfully appointed to ensure the utmost comfort and privacy for the guests.

Adjacent to these, the Lower Deck includes two additional guest cabins, sized at 14.5 and 13.5 square metres, meticulously designed to maintain a high standard of comfort and nautical charm. Each space is crafted with a focus on quality materials and sophisticated detailing, reflecting a design ethos that

LOWER DECK // VIP CABIN

LOWER DECK // VIP CABIN

combines functionality with an inviting ambiance.

Together, the accommodations on the Lower Deck create a cohesive environment that enhances the yacht's overall experience. The interiors are adorned with elements that echo the sea's elegance, offering a serene and luxurious atmosphere that is both intimate

and stylish. This thoughtfully arranged deck ensures that every guest enjoys a refined and comfortable stay, with a touch of nautical grace that defines the yacht's character.

09

E-MODE: SIEMENS ENERGY

The E-MODE is a plug-in system designed for easy integration into standard propulsive architecture. It is specifically intended to provide an innovative system that can be managed as a traditional electrical system in the event of an occurrence;

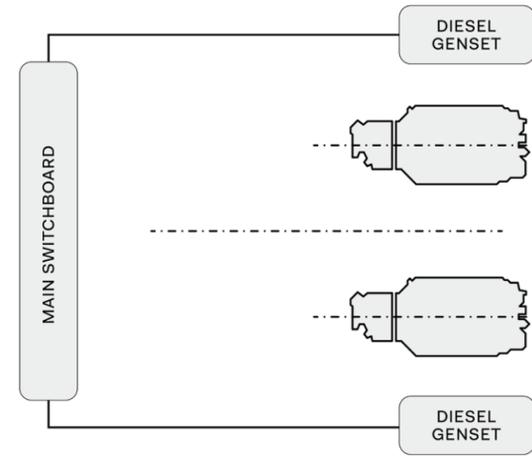

The E-MODE is designed with a flexible system architecture, allowing it to be offered as an OPT solution;

The electric propulsion system can be completely disconnected if needed allowing the yacht to cruise powered by diesel engines; To meet the specific needs of the end user, the

system must be equipped with an Ion Lithium battery pack. The size of the battery pack will depend on the user's requirements. For example, additional batteries may be required to enhance the efficiency of propulsion;

The electric motors are capable of both absorbing and providing electric power. They can function as both propulsion drives and electric generators. When the vessel is powered by a diesel engine, the electric motors operate as generators, supplying power to the onboard systems and rapidly charging the batteries. This configuration allows the diesel generators to be turned off, thereby reducing fuel consumption and emissions.

ENHANCED COMFORT MODE
Ideal for low-speed coastal or night cruising and maneuvering. The main benefit of this mode is the exceptional comfort it offers and increased maneuverability. The yacht can cruise in electric mode at low speed with diesel engines switched off, but their gensets continue to supply energy to the electric motors.

ECO CRUISE MODE
In this mode, batteries supply energy to the electric motor to cruise. Most suited for short trips along the coast, this zero-emission mode allows entry into protected marine areas or zones usually designated as off-limits

to motor yachts, with the range depending on the capacity of the battery pack.

ECO-TRANSFER MODE

DAY CRUISE AT 8KN - BATTERY PACK 112 kWh

FUEL SAVING **- 12%** HOURS OF DG SAVED **- 100%**

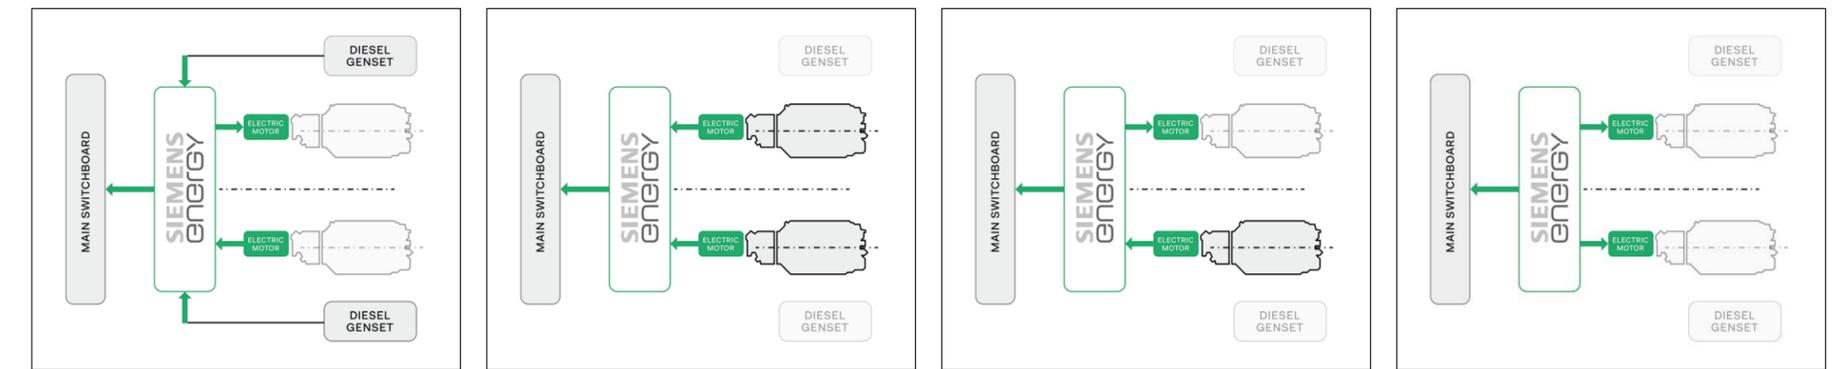

ECO TRANSFER MODE
Both diesel generators are switched off while one propulsion engine only continues to run, enabling the yacht to halve the running hours of the main engines and gensets. As a result, fuel consumption, CO₂ emissions and NOx emissions can be sensibly reduced compared

with traditional propulsion systems.
EXTENDED RANGE MODE
Designed for long-transfer journeys and coastal cruising, this mode reduces fuel consumption and emissions. When the gensets are switched off the yacht can go at full speed, with the electric motors powered by the main engine and working as shaft generators.

EXTENDED RANGE MODE

DAY CRUISE AT 10KN - BATTERY PACK 112 kWh

FUEL SAVING **- 7%** HOURS OF DG SAVED **- 100%**
